Amuluru Pavan Sai

Target role: **Product Manager · Associate Product Manager — B2B SaaS, HR-Tech & Fintech**
Pune, India | +91 89772 76836 | amulurupavansai@gmail.com | linkedin.com/in/amuluru-pavan-sai-573390258

SUMMARY

Management Trainee on the Product Manager track at Neeyamo (global payroll & EOR): preparing BRDs for a Fortune Global 500 client's payroll transformation from inputs across teams, testing a GenAI self-service assistant, and benchmarking the platform against Workday, SAP and Oracle. Pairs ML and deep-RL projects with a record of running 1,000-participant programs.

SKILLS

Product: requirements gathering & BRDs, process flows (swim lanes), gap lists, competitive benchmarking, UAT / end-to-end test design, release-note review
Data & tech: SQL, Python (Pandas, NumPy), Excel, Power BI, MATLAB; HRIS-to-payroll integrations, bank files, GL posting
AI: evaluation of a GenAI assistant, prompt design, AI-assisted research and documentation (Claude); CNN and deep-RL projects
Domain: global payroll — India (PF, EPS, PT, income-tax declarations), Australia (PAYG, payroll tax, FBT, super), France (DSN)

EXPERIENCE

Management Trainee, Product Management | Neeyamo — Jun 2026 – Present
Emerging Leaders Program (Product Manager track) · Global payroll & EOR technology company · Pune

- Prepare **25 component BRDs** for a Fortune Global 500 FMCG client's India payroll transformation, compiling inputs from internal teams and client workshops into the standard format; drafted the first, now the **template for the rest**.
- Built GenAI-assisted digests of client workshop transcripts mapped to all 25 components, plus a gap list for team review; co-presented the first BRD with the team lead to the client's transformation office.
- Designing scenario-based test cases for the company's **GenAI employee self-service assistant** (payroll models, configuration, release features); running them and writing the test report.
- In charge of moving regression testing from manual to **automated**; write E2E test cases for the next-gen payroll platform.
- Automating a manual deliverable (manager-set challenge): decoding a partner's Australian state payroll-tax report from raw data into a generalised model for engineering to build.
- Benchmarked the platform against **Workday, SAP SuccessFactors and Oracle Cloud HCM** across payroll, time & absence and core HR; drafted French DSN field mappings to the product's field master for review.

PROJECTS

AI Collections Product Concept | TVS Credit E.P.I.C. analytics case — Aug 2025

- Framed an NBFC's loan-recovery problem as a three-part product: XGBoost default-risk scores with SHAP explanations, K-Means customer personas, and an LLM chatbot whose tone adapts to each persona.
- Chose F1 with precision–recall threshold tuning to trade recovery against needless contact with good customers.

LEADERSHIP

Sports Affairs Secretary | IIT Palakkad Students' Affairs Council — 2025 – 2026
Elected campus-wide with 497 first-preference votes (56.9% of valid votes)

- Ran a 50+ member council across 9 clubs; redesigned flagship tournaments as **auction-based franchise leagues** (Sportacus 2025, Sahyadri Super League) scored on gender and batch diversity to widen participation.
- Delivered August 2025's 20-event calendar (370+ participants), Inter-IIT trials for **271 registrants**, and a ₹13.4 lakh General Championship budget plan.

Contingent Leader, Inter-IIT Sports Meet | IIT Palakkad — Dec 2024 & Dec 2025

- Led IIT Palakkad to its **first-ever 1st place in the March Past** (2025; 13th the year before); ran travel, stay, food and safety for a 59-member, 10-day contingent (2024).

EDUCATION

B.Tech, Electrical Engineering | Indian Institute of Technology (IIT) Palakkad — 2022 – 2026
CGPA 7.49 / 10 · Coursework: Principles of Economics, Probability & Statistics, Public Policy for Engineers, Introduction to Programming, Reinforcement Learning-based Control

CERTIFICATIONS & ACHIEVEMENTS

- Power BI Workshop, OfficeMaster (Jul 2025) · KIMO (2024): Python 3 Bootcamp, Advanced Data Structures & Algorithms in Python, Getting Started with Machine Learning, Mathematical Foundation for AI & ML
- Inter-IIT Sports Meet cricket squad, three consecutive years (2023, 2024, 2025); Player of the Tournament and captain (runner-up), General Championship 2024 · NDA 2021: cleared written exam, SSB interview
