PM SNAPSHOT

Amuluru Pavan Sai

Aspiring Product Manager · HR-Tech & Payroll

IIT Palakkad Electrical Engineering graduate on a Product Manager track as a Management Trainee in global payroll technology. Comfortable turning scattered inputs into clear requirements, testing AI features against real scenarios and working across engineering, QA and client-facing teams.

KEY SKILLS

- Requirements gathering & BRDs
- Process flows & gap analysis
- UAT / end-to-end test design
- Competitive benchmarking
- GenAI assistant evaluation
- Stakeholder coordination

TOOLS

- SQL & Excel
- Power BI
- Python (Pandas, NumPy)
- Playwright-based test automation
- GenAI tools for research & documentation
- MATLAB

DOMAINS

- Global payroll
- HR-tech & employee self-service
- Time & absence, core HR
- Statutory compliance (India, Australia, France)
- Fintech (case work)

HIGHLIGHTS

- Prepared 25 component BRDs for a large payroll transformation.
- Designing scenario-based tests for a GenAI self-service assistant.
- Moving payroll regression testing from manual to automated.
- Led a 50+ member students' council and programs with 1,000 participants.
